# Electric Vehicles Webinar

11 July 2017

# About

- **The Clean Energy Business Council (CEBC)** is a non-profit, non governmental association bringing together leading local and international organizations in the MENA clean energy sector from both the private and public spheres
- CEBC promotes constructive dialogue and collective action by all stakeholders to guide public policy and private investment in the region's nascent clean energy sector
- CEBC provides its members with updates on the latest developments in clean energy policy, research, and technology and opportunities to grow their organizations and to network with high-level industry players

See [www.cleanenergybusinesscouncil.com](http://www.cleanenergybusinesscouncil.com)

We have a special announcement for today...

... the creation of:

# The CEBC

## New Energy Vehicles Club

# Objectives

## CEBC NEW ENERGY VEHICLES CLUB

- Represent the industry and speak as one voice to the different authorities
- Lobby for specific requirements with the local authorities to facilitate market development
- Organize recurrent interactions with local authorities and work hand in hand with them
- Raise awareness and educate the public through workshops and conferences
- Share information through networking, regulation and understanding requirements
- Contribute to open new markets for the members of the Club
