

GEOSPATIAL PLANNING

Parallel Session Report Out

Session Objectives

- Share learning on geospatial planning in Ghana
- Brainstorm recommendations as a group, addressing key questions/challenges related to geospatial planning

Your charge:

Listen, learn and provide your insights and expertise.

We will report back your recommendations to the large group.

Agenda

- Session overview
- Q&A
 - *George Owusu, CERSGIS*
- Panel discussion
 - *George Owusu, CERSGIS*
 - *Seth Mahu, Ministry of Energy*
 - *Fred Appiah, Energy Commission*
 - *Ashish Shrestha, World Bank (facilitator)*
- Table conversations
- Report out/group discussion

Discussion Questions

- What have you heard that you like about Ghana's approach to geospatial planning?
- What recommendations do you have for improvement?
 - *For data collection/quality?*
 - *Indicators/criteria for siting, energy source, generation capacity, etc.?*
 - *For integrating planning into decision-making?*

What are 3 key challenges/issues related to geospatial planning?

Possible recommendations to address challenges/issues

- Challenge 1:
- Challenge 2:
- Challenge 3:
